Service Contract Quotation

Quotation Number: **8450322378**
Customer Number: **552039**

Dear Sir/Mdm,

Thank you for your enquiry. We are pleased to submit our service contract proposal for your deliberation.

Please do not hesitate to contact us for clarifications should you have further queries.

(1) Notes for the Service
i. It is compulsory that all maintenance works shall be performed prior to start of the calibration process. Therefore it is necessary that sufficient time must be allocated in advance to allow our field service engineer to complete the Service.
ii. The calibration shall be performed according to the calibrated range specified based on the longest gauge available with considerations on the measuring range of CMM and the constraint posed by the type of sensor used on the CMM.
iii. This Service covers only one sensor system & measuring software combination. Any additional request to calibrate with 2nd sensor & measuring software or additional tests, is understood to be chargeable. Such request needs to be agreed and quoted with firm Order acknowledged before the service commence.

(2) Duties of Machine owner specific to service visit
i. It is the duties of machine owner to ensure that Zeiss is pre-informed on the machine's functional and operational conditions prior to the commencement of service visit. This is to allow our field service engineer to prepare in advance necessary tools and equipment in order to complete each service visit within the scheduled time allocated.
ii. Owner must ensure all the facilities i.e. electrical power supply , pneumatic supply etc. are made available, and, ensure the machine is located in an environment that allows the service to be carried out according to the manufacturer's procedures and specifications.

(3) Extra Charges

i. Zeiss reserves the rights to charge for additional service efforts not cover within the scope of this Contract i.e. repair work undue delay etc, which causes extended hours in order to complete the service. Such charge shall be advised and quoted, and is determined based on additional time and efforts required till the completion of the service.
ii. In event our field service engineer is unable to conduct the service upon arrival without prior notification, a half day service fee, transportation and incident costs shall be imposed. As such the Service is postponed indefinitely to another mutually agreeable date.

(4) Breakdown Call
i. Priority service with response time within 36 hours if call is received between 8:30 am to 5:30 pm on working day. For call received after 12 pm on a Friday & eve of public holiday visit is scheduled on the next working day.
ii. Free spare part emergency loan is subject to availability

(5) Discount within this Contract
i. 5% off on yearly renewal of this Contract
ii. 5% off for spare parts, repair & accessories

(6) Calibration Certificate
i. Please note we will email the softcopy calibration certificate upon request once it's ready.
ii. Original hardcopy will be released out for postal services when payment of invoice is received.
